

# The Iccle Family Wall Quiz

Print out all the pieces, on coloured paper if you like. They can be covered or laminated to protect them and make them last longer. Put them up on the walls round the room as people are arriving for an event. Explain, using one of them as an example (I usually use number 2, bicycle) that they are trying to find out the names of all the iccle family. They are called that because they all end in the sound "Iccle!" Give out paper and pencils and tell people to write down the numbers 1 to 20. After about 15 minutes or so, gather people together and announce the answers.
